Facts

Weight (LSF 600t):	7'750 t
Moving distance:	90 m

Handling equipment

Strand jack H600:	4 pcs
-------------------	-------

Description

In 2014 the DSO Meren topside was moved for load out. Hebetec Engineering Ltd. provided the equipment for this load out action.

The 4 strand jacks with a total pulling capacity of 2'400t were operated by a centralized control system.

The topside has been moved onto a barge, operated by Cosco.
