

Hebetec Engineering AG is a global player in the field of lifting, sliding and lowering heavy loads. Our services here include, for example, the movement of bridges, heavy industrial components, entire buildings etc. As part of the Vinci Group, we literally make big things happen.

We are looking to expand our team, with immediate effect or at an agreed date, with a

## Head of Engineering (f/m/x), full-time

### What you do

- Head of the Planning department with a number of employees
- Internal communication with the Planning departments in the Vinci-Freyssinet Group
- Independent development of concepts and technical solutions for global heavy-lifting projects, taking advantage of our existing in-house system components
- Static calculations, primarily in accordance with EUROCODE or Swiss rules and standards
- Because of our international scope, you should also be capable of working with foreign rules and standards
- Creation of verifiable structural design documents for detail engineering
- Pre-dimensioning of steel structures as well as weight determinations for quotation costing
- Creation of basic planning together with our design team
- Creation of verifiable documents in German and English
- Cooperation during the development of new innovative products and systems

### What you bring

- Completed construction engineering degree, specialising in structural analysis and/or steel construction
- Experience with steel structures, static calculations and assembly techniques
- Experience with the relevant calculation tools in the 2D, 3D and FEM field
- Personal initiative, ability to work in a team, commitment and customer-oriented thinking
- Native German speaker
- Very good spoken and written English skills (company language English), French skills would be a bonus
- Willingness to occasionally travel and be briefly assigned abroad

### What we offer

- A varied, wide-ranging and responsible job in an international setting
- Excellent internal advancement and career opportunities, potentially also in other fields
- Company with a flat hierarchy and an open, respectful culture of communication
- As part of the Vinci Group with a direct connection to the French construction company Freyssinet, you benefit from the advantages of a major international corporation
- Modern wages, 25 days of holiday, opportunities to work from home and various benefits
